

ClearVision™ Series

perforated paper

for price tickets, labels and signs

Use low cost PerfPaper signs with re-usable full color ShelfTalkers

Quick and easy price changes are at your fingertips using kostklip's PerfPaper and ClearVision™ ticket molding

Our lettersize micropert paper comes in a variety of label sizes from 2" w x 1.25" h to 7" w x 11" h - see reverse >

Save with plain paper inserts.

Replace expensive full color adhesive applications with low-cost laser printed price tickets, labels and signs using kostklip's high quality letter-size micro-perforated paper.

Insert our PerfPaper into **ClearVision™** ticket moldings or re-usable, dynamic printed plastic ShelfTalkers and maximize color without the expense for a professional presentation.

PerfPaper + ClearVision™ + ShelfTalkers

Our Perforated Paper Series is a component of the ClearVision™ series easy-to-implement shelf-edge labeling program designed to improve store appearance and lower operating costs.

Non-adhesive ClearVision™ Series PerfPaper advantages

- Labels are micro-perforated for a smoother tear-away edge
- Paper expressly designed for high quality laser printing
- Eliminate expensive color adhesive labels and card stock signs
- Reduces damage from moisture and dirt
- Re-use sign holders to save time and money
- Keeps labels aligned with SKU'S
- Quick and easy label changes - no adhesive residue

- see reverse for sizes >

ClearVision™ Series

perforated paper

for price tickets, labels and signs

Your Return on Investment.

Save up to 90% with non-adhesive paper labels.

Use our PerfPaper with ClearVision™ ticket moldings to help lower on-going labor costs by:

1. reducing the time taken to complete your weekly price changeovers, and
2. reducing time required to maintain your standard C-channel molding - i.e. removing adhesive residue left over by adhesive labels!

Paper Specifications

- Micro-perforated - smooth tear away edge
- 92 Bright (whiteness)
- 0.0055" thick - medium 28lb BOND paper (= 70LB offset stock) - 'Matte' finish
- "Laser printer engineered paper stock" - definition :
 - Laser toner adheres to paper in laser printers at temperature up to 400 degrees. This paper is specifically designed with a high moisture content to avoid drying out and curling of paper after printing. Also, it is milled with a smooth surface which allows for better adhesion to the toner. These qualities are especially beneficial because of the clarity required of printed bar codes as well as the handling of tickets during installation.

Sizes

Code	Description	Labels/Sheet	Color	Case
107-001	2"W x 1.25"H	32	white	1000
107-002	2.5"W x 1.25"H	24	white	1000
107-003	3"W x 1.25"H	18	white	1000
107-004	3.5"W x 5.5"H	4	white	1000
107-005	4.25"W x 5.5"H	4	white	1000
107-006	5"W x 7"H	2	white	1000
107-007	7"W x 11"H	1	white	1000
107-008	8.5"W x 11"H	1	white	1000
107-009	3"W x 5"H	4	white	1000
